Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claim 7 is objected to because of the following informalities: A period is missing at the end of the claim 7. Appropriate correction is required.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-2, 6, and 8 are rejected under 35 U.S.C. 102(e) as being anticipated by Lee et al. (US 2004/0070001, hereinafter, Lee.)

In regard to claims 1 and 8, in fig. 1, Lee discloses a chip light emitting diode, LED ([section [0013], line 1) comprising:

a metal pad, or electrode 11 (section [0013], line 3) and a lead, also 11, spaced away from each other on a printed circuit board 1, or base plate (section [0013], line 3);

a light emitting chip LED 2 mounted on the metal pad (section [0013], line 2);

a wire 3 connecting the light emitting chip and the lead (section [0013], line 4);

and

a resin package 4 (section [0013], line 4) sealing the light emitting chip and at least a part of the metal pad, lead, and the wire, the resin package having at least one curved projecting part.

In regard to claim 2, Lee further discloses wherein the curved projecting part has a cross section which is substantially semicircular. See fig. 1, for example.

In regard to claim 6, Lee discloses that wherein the resin package has one projecting part, the curved resin part. See fig.1, for example.

Allowable Subject Matter

3. Claims 3-5 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The following is a statement of reasons for the indication of allowable subject matter:

The primary reason for the indication of the allowability of the above claims is the inclusion therein, in combination as currently claimed, of the limitation of the use of the surface of the resin, the curved projecting part, comprises of straight lines with an angle formed between adjacent lines, or stepped, or striations to scattering light, and the resin package comprises two projecting parts which are spaced away from each other by a predetermined interval. This limitation is found in the above claims and is neither disclosed nor taught by the prior art of record, alone or in combination.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
